

# STUDENT LEADER

## Spotlight

JOE

I'm currently studying Biology, Chemistry and Maths. After my A-Levels I plan to study Biology at University. I hope to get a job doing research, or another path I may discover at University.

I wanted to be a Student Leader so that I could give back to Montsaye, which has my home a long time. I want to improve the existing Sixth Form and the way it interacts with the rest of the school. I hope to effectively manage and improve the new Sixth Form Student Leadership Team. I would also like to expand the Reading Tutor program and keep that running. Personally, I am hoping to develop my public speaking skills.

My favourite thing about Montsaye is the great team of teachers. They are friendly and supportive teachers, and they have been brilliant at helping me through my academic studies.

### HANNAH

I am studying Biology, Chemistry, Psychology and English Literature. After sixth form, I plan to go to university to study medicine in hopes of becoming a surgeon.

The reason why I wanted to become student leader is because being a role model for all students motivates me. I want to uphold the high standards set by previous students and I hope to continue to inspire others through my actions as student leader. Montsaye has helped me become more confident as a person and in my education, particularly in Year 11. I've always admired the school's values. Aspiration is something that I have deeply resonated with. I am grateful to the school and all the teachers for helping me to work hard and push myself to success.

As student leader, I hope to promote the appeal of post-16 education and encourage more students to apply to sixth form. It's not just for those who want to apply to university but opens the doors to various opportunities like higher level apprenticeships. I also hope to inspire students in the school to be more engaged in their education and guide them to develop important life skills.
